Subject Lands

The Subject Lands (c. 3.45 hectares) (see Figure 3) are located at Crossneen, Co. Laois and belong to the [Applicant](#). See Related Folio Number LS7022(See Figure 5)

Subject Lands Planning History

None

Adjacent Lands/site Planning application details ref: 04784 Laois County Council

erect 96 no. two storey houses consisting of 8 no. 4 bedroom detached houses, 30 no. four bedroom semi-detached houses, 42 no. three bedroom semi-detached houses, 8 no. three bedroom end of terrace houses and 8 no. three bedroom mid terraced houses with associated site development works

Received Date: 22/06/2004

Decision Date: 21/10/2004

Decision Type: Conditional

Subject Lands Previous zoning

Previous zoning:	Residential Development. See Graiguecullen LAP MAP 2007-2013 (Source Laois County Council)) (See Figure 1)
Current zoning:	Strategic Reserve GZT No. O1 To provide lands for future development in line with national and regional targets over the next Plan period 2018-2024 and partially Open Space and Amenity GZT No. G5 (See Figure 2)

SUBMISSION

To Whom It May Concern:

The applicants have retained Kehoe Architectural Design to make the following submission to Carlow-Graigucullen Joint Urban Local Area Plan Review.

Submissions to the Planning Authority on or before 5pm, Friday 14th October 2022.

The lands are located at Crossneen, Co. Laois and are adjacent to existing housing development known as Highfield Manor via Mullins lane and Crossneen Manor via Leighlin Road, the lands are conveniently located on the southern edge of Carlow town and is a popular location for those seeking to purchase a starter or family home.

Regional Spatial and Economic Strategy(RSES)

The Regional Spatial and Economic Strategy for the Southern Region 2020 - 2032 seeks to implement the NPF at a regional level and is based on a vision to:

Nurture all places to realise their full potential;

Protect and enhance the environment;

Work to achieve economic prosperity and improve quality of life for all;

Accommodate expanded growth and development in suitable locations; and

Promote the region's international reputation as one of Europe's most creative, innovative, greenest and liveable regions.

Key strategic issues for Carlow,

Designation of Carlow Town as a key Town to function as an economic self-sustaining regional driver and a focus of significant growth within the county. The inter-regional role of Carlow is acknowledged given its location to the north of the Southern Region and adjacent to the Eastern Midlands Regional Assembly Region.

Recognition of the opportunities afforded to Carlow as part of a network of regionally significant drivers of collaboration and growth located on the Waterford-Kilkenny-Carlow-Dublin M9/Rail Network/Axis.

Population target of 63,000 (+6,000 (10%) by 2026 and 65,500 (+8,500 (14%)) by 2031.

Supporting the strong network of towns, villages and diverse rural areas in achieving the objectives of the NPF.

Ireland's Rural Fabric- **Reversing town/village and rural population decline**, by encouraging new roles and functions for buildings, streets and sites.

National Policy Objectives

National Policy Objective 3a

Deliver at least 40% of all new homes nationally, within the built-up footprint of existing settlements.

National Policy Objective 3c

Deliver at least 30% of all new homes that are targeted in settlements other than the five Cities and their suburbs, within their existing built-up footprints.

National Policy Objective 4

Ensure the creation of attractive, liveable, well designed, high quality urban places that are home to diverse and integrated communities that enjoy a high quality of life and well-being.

National Policy Objective 5

Develop cities and towns of sufficient scale and quality to compete internationally and to be drivers of national and regional growth, investment and prosperity.

National Policy Objective 6

Regenerate and rejuvenate cities, towns and villages of all types and scale as environmental assets, that can accommodate changing roles and functions, increased residential population and employment activity and enhanced levels of amenity and design quality, in order to sustainably influence and support their surrounding area.

National Policy Objective 11

In meeting urban development requirements, there will be a presumption in favour of development that can encourage more people and generate more jobs and activity within existing cities, towns and villages, subject to development meeting appropriate planning standards and achieving targeted growth.

National Policy Objective 18b

Develop a programme for 'new homes in small towns and villages' with local authorities, public infrastructure agencies such as Irish Water and local communities to provide serviced sites with appropriate infrastructure to attract people to build their own homes and live in small towns and villages.

National Policy Objective 35

Increase residential density in settlements, through a range of measures including reductions in vacancy, reuse of existing buildings, infill development schemes, area or site-based regeneration and increased building heights.

Flood Risk

None

Subject Site Attributes

Public water main

The existing public main and its network ensure easy access to a potable water supply via adjacent developments.

Foul water main

The existing public main and its network ensure easy access to a foul water supply via adjacent developments.

Executive Summary & Conclusion

This submission relates to lands in Crossneen. In summary, this submission requests the following:

Request that the Planning Authority To restore the lands to residential use as per Graiguecullen LAP MAP 2007-2013 (See Figure 1)

Request that the Planning Authority to designate the subject lands to Residential 1 GTZ No. R2.6 To protect and enhance the amenity of developed residential communities as per equivalent current Joint Spatial Plan for the Carlow Graiguecullen Greater Urban Area 2012-2018 (as extended). The subject lands are outlined in red as per (see Figure 3)

The subject lands are appropriate for residential zoning (See [Subject Site Attributes](#))

The subject lands are served by a public water main via adjacent residential developments.

The subject lands are serviced by existing pathways via adjacent residential development and can be extended easily.

All related services for the subject lands are next to adjacent residential developments.

The subject lands is a 25 minute walk(2km) to Carlow town Centre(CARLOW POST OFFICE BURRIN STREET CARLOW R93 X4H6. See (see Figure 4)

The subject lands are in Close proximity to the following

Church (St. Clare's Catholic Church)

Schools

Community Centres.

The subject lands have been deemed acceptable for Residential development previously. (see Graiguecullen LAP MAP 2007-2013 (Source Laois County Council) (See [Previous zoning](#))

The adjacent lands have been deemed acceptable for Residential in the past and were granted planning permission (see [Planning History](#))

Rezoning of subject lands can only assist in developing the Crossneen area (see [RSES](#))

The Rezoning of the subject lands will improve the supply of residential units for Crossneen in a sustainable manner.

The prospective development will only Regenerate the Crossneen area.

Carlow has been Identified as Key Towns in RSES, Crossneen area is a contributory residential area to Carlow town.

In conclusion, My client considers the rezoning of the subject site appropriate, especially when you take all the relevant planning policies into consideration and also the previous zoning and the planning history of adjacent lands.

My client believes the content of this submission is in order and we would welcome the opportunity to discuss any queries that the Planning Authority may have regarding its content.

Regards,

Declan T. Kehoe MCIAT C.Build E MCABE
